

# CAFÉ SERIES

## Fixed Base Tables

**Stability**

**Durability**

**Decorative**

**Varied Uses**

**High-Quality**

**Easy Assembly**

**Stain Resistant**

Midwest Folding Product's Café Series has the answer for your café, restaurant, or bar. Whether you need completely new tables or just want to replace or update your current table tops we can help. Our tops start with a heavy-duty 1-1/8 inch particle board core. We then attach a high-pressure laminate top and a high-density polyethylene backer. A t-mold edging provides side impact resistance.

For the ultimate strength and ease of assembly, we use metal inserts and bolts to attach our tops to our bases. No drilling required! Several base options are available: cafe style, bar height, bar height with foot ring, ADA compliant, 3 prongs, 4 prongs, round.

Need a custom laminated top to match your decor? Need a custom shape/size? No problem we can provide hundreds of laminate options from the top suppliers in the industry. Our in-house CNC can produce tops to your exact specifications.

### Features and Benefits

- High-pressure laminated top provides a very durable, easy-to-clean surface.
- Tops made from heavy-duty 1 1/8" particleboard core.
- No drilling is required to assemble our tops to our bases.
- Cast Iron bases provide the ultimate durability. Lifetime warranty on base.
- 3-year warranty on tabletops.
